

Connecting buildings in the Westmead Health Precinct

From late October 2024, work will start to provide future access for staff, patients and families to move between the new building at The Children's Hospital at Westmead (CHW) and Block K, Westmead Hospital.

The new connections are being constructed on:

- Level 3 of the new CHW building to Level 2 of Block K
- Level 4 of the new CHW building to Level 3 of Block K

These connections form part of the NSW Government \$619 million investment into The Children's Hospital at Westmead redevelopment which includes a new 14-storey building to provide new and expanded critical and acute healthcare services, multi-storey car park, revitalised 'KidsPark' forecourt and refurbishment of some areas of the existing hospital.

Construction hours

Standard construction hours are Monday to Friday from 7am to 6pm, Saturdays 8am to 5pm. We will provide further notification of any work that is required to take place outside of these hours.

This work will occur in spaces that have been vacated (*see map on the overleaf for the construction location*).

Managing construction in clinical areas

The safety of staff, patients and the community are our highest priority.

Please follow signage, marked pathways and directions from site staff during construction.

Noise, dust and vibration will be closely monitored.

This includes mitigation measures such as:

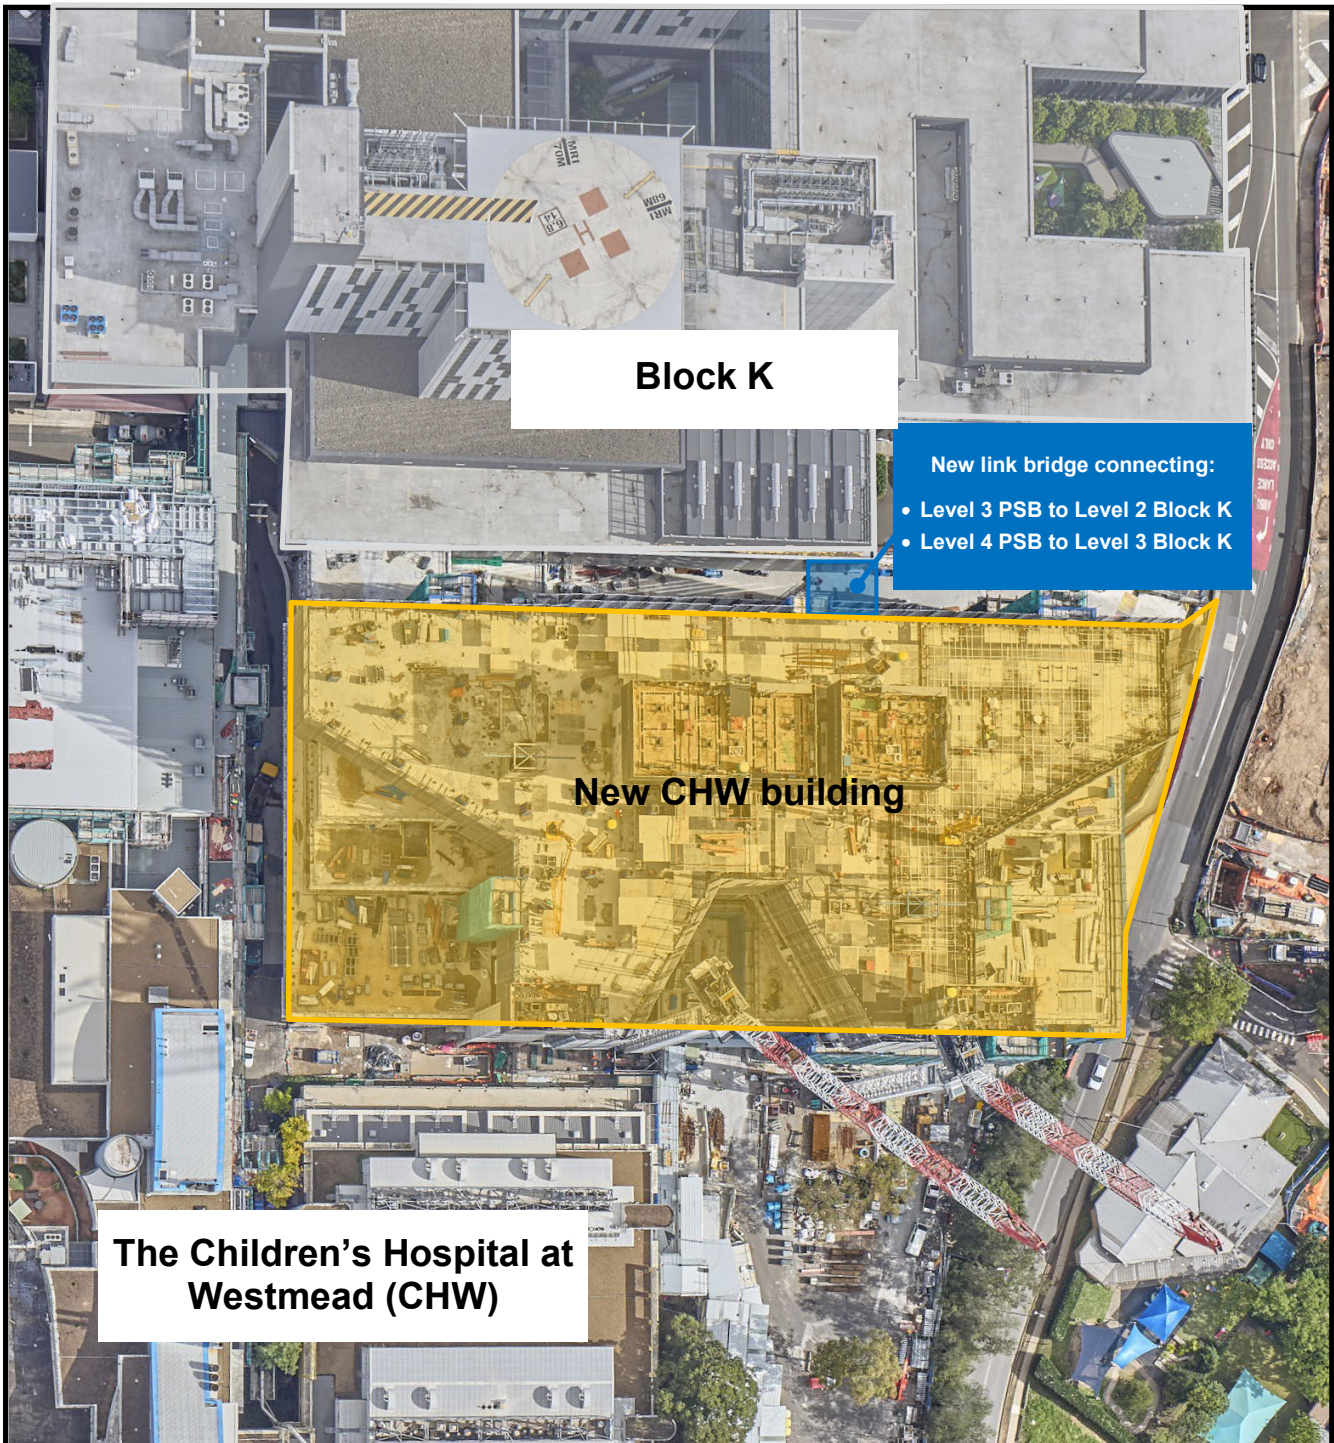

- Construction hoardings will be used to reduce noise and dust impacts, ensuring the safe operation of the hospital during ongoing works
- Programming noisy works (where possible) at times to best minimise impact and disruptions
- Noise and vibration monitors with real time alerts
- Noise blankets

There will also be measures in place to ensure no water ingress occurs during construction.

Materials from the works will be removed externally via the CHW new building construction site and Kids Research Lane.

Staff will be continuously being informed and engaged throughout the project.

We thank you for your patience while this important work takes place.
